

CLUB CLEAN-UP DAY

Saturday April 20th Starting at 8:00 AM

Take an active part in getting your club back in great shape.

Make your plans now to help get the club grounds and all the facilities clean and refreshed for the summer shooting season. This is an opportunity to show your pride in helping make your club the best it can be... and also earn those needed work hours to reduce your annual membership dues.

We will be doing everything around the property from raking the grounds, removing dead fall, trimming trees, cleaning the main clubhouse, and a variety of other general maintenance items. Please dress appropriately for whatever the weather may be on that day, be sure to wear work clothes and bring along a pair of work gloves. This is a great time to meet other WSA members. Lunch will be served to all workers.

If you have access to a **backpack blower (Very Useful)**, chain saws, power limb pruners, or other specialty outdoor equipment that you are willing to use around the club on this day, it would be much appreciated.

If you have any questions, please contact Arthur Bryant at arthur_bryant@verizon.net)

NOTE: Everyone will need to sign in and sign out inside the clubhouse to be credited for your hours worked. Also, please remember to bring your WSA work card so it can be signed before you leave.
